PharmLabs San Diego Certificate of Analysis
3421 Hancock St, Second Floor, San Diego, CA 92110 | License: C8-0000098-LIC
ISO/IEC 17025:2017 Certification L17-427-1 | Accreditation #85368

Sample
Ripped - 1 2g Strawberry Snow Cone

Sample ID **SD240221-032(862189)** Matrix **Concentrate (Inhalable Cannabis Good)**
Tested for **OCHO Extracts**
Sampled - Received **Feb 02, 2025** Reported **Mar 11, 2025**
Analyses executed **CANX, RES, MIBIG, MTO, PES, HME, FVI**

Laboratory note: The estimated concentration of the unknown peak in the sample is 7.55% | Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)d8-THC or d9-THC. At this time there are no reference standards available for (+)d8-THC. (+)d8-THC is a diereomeric compound from the main (-)d8-THC cannabinoid and, therefore, these two compounds may have dierent ecoies. Using the most advanced instruments and techniques available, the separation of (+)d8-THC and d9-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)d8-THC and d9-THC with the majority, if not all, of the concentration being (+)d8-THC. Total (+/-) D8 Concentration is estimated to be: 53.45%

CANX - Cannabinoids Analysis

Analyzed**Feb 23, 2025** | Instrument**HLPC**

"This report shall not be reproduced except in full, without the written approval of PhlarLab. This report is for informational purposes only and should not be used to diagnose, treat, prevent any disease. Results are only for samples and batches indicated. Results are reported on an "as received" basis unless otherwise specified. Results are based on information provided by the customer and samples collected by the customer or their agent. Sampling procedures may be required for the customer to be in compliance. The measurements of uncertainty is not included in the ISO/IEC Full evaluation unless explicitly required by federal, state or local laws and has been reported on the certificate of analysis. Measurements of uncertainty is available upon request.
